A Brief report on Grievance and redressal Cell 2022-24 Batch

Sri Sarvajna college of education arranged career guidance for the student teachers of 2022-24 batch on 29th September 2023. Institution invited Smt Gowramma as resource person to provide guidance for budding students. Dr. Veena M.S. introduced alumni to the gathering and asked student teachers to clear their doubts during interactive session. Career guidance is very much required for the student teachers to get ready for their profession and fulfil the demands of the society's expectation. Alumni helped the would-be teachers to offer insights and ready to provide real life experiences. She guided how to search jobs, resume writing, how to face interviews? Which are the courses helping to enhance their professional skills? Etc needs of the students were fulfilled. She provided firsthand experiences of their career paths which including challenges of teaching profession, at the same time she guided to face such challenges to get success in their profession. It made them to understand the practical aspects of teaching profession and the work culture of teachers.

Sri Sarvajna College of education conducts ICT classes for student teachers to provide practical experience and exposures to student teachers which is helping to utilize in their future professional life. Institution conducted workshop for student teachers from 20th to 22nd September 2023 in collaboration with IT for change. First session was started with revision of basic general computer concepts, Open Educational Resources (OER), Creative Commons (CC) copyrights, concept mapping etc. Apart from GeoGebra in Mathematics, Audacity for Arts Students were practiced in computer laboratory.

A workshop was conducted to focus on the practice of Various ICT tools designed to enrich and support learning experience in content and pedagogy subjects. The main objective of this workshop was to enhance and understanding practical skills in using ICT tools and to improve educational learning outcomes and engage student teachers effectively in pedagogy papers. To make the student teachers to equip with a deeper understanding about utilisation of ICT tools in teaching pedagogy subjects on 10th and 11th October 2023.
