

SRI SARVAJNA COLLEGE OF EDUCATION

RESEARCH CELL

The Research Committee of Sri Sarvajna College of Education, works actively to facilitate and enhance research culture among the faculty and students. It provides organisational support to the teachers to undertake in-house presentations on need based areas, thematic papers and research based discussions. It encourages the faculty to publish articles in renowned journals, publish chapters and also to participate and present papers in national and international seminars, conferences and symposiums. The institution raises an upper hand to implement innovations in teaching and learning action research and community based projects. It provides technological support for the research activities to be carried out in the college. The Research Committee takes upon the responsibility of creating a Research environment and research mind set among the faculty and the students and also try out innovations in various dimensions of the course. The Committee is working continuously for making its faculty well versed in Research and innovations and also students to develop research mindedness.

The Research Committee was formed in the year 2011, which comprises of the following committee members

Dr. B.P.Madhumathi	-Principal and Chairperson
Dr Umashree D.K	- IQAC coordinator
Dr Sushma Patil	- Convenor
Dr Srinivasacharalu	- Member

Objectives of the Cell

1. To identify need based areas of research and innovations in Teacher Education
2. To provide organisational support for in-house presentations and deliberations
3. To encourage the faculty of the college to publish research articles in journals
4. To provide opportunities for the faculty to participate and present papers in national and international seminars
5. To provide platform for implementing innovative practices in the classrooms through proper discussions and feedback
6. To plan for appropriate Action research and community based projects
7. To build collaborations and linkages with various Government and Non-government organisations and institutions for gaining wider knowledge and skills for both faculty and student-teachers
8. To provide sufficient technological support for research works whenever needed
9. To monitor the progress in the areas of faculty development and student engagement
10. To build a cordial relationship with Practice teaching schools for carrying research activities and innovations by the faculty and student-teachers
